VEHICLES SHOCK ME

GOTR

So you caught me all alone
Did you think I'd care at all
Now I'm sitting by the phone
Waiting for you to call
It rang a million times
Before you picked it up
I wear a stupid smile
Saying that I'm stuck
The effervencent beauty of a face so thin
All the stupid questions
Well they did me in
Who was I to think to tell
You drove her to uh oh oh
Fake plastic trees are dead
Have a good time when you fall
It rang a million times
Before I picked it up
I wear a stupid smile
Saying that I'm stuck
The effervencent beauty of a face so thin
All the stupid questions
Well they did me in
Everything
Is upside down
Everything
Is over now
It rang a million times
When you lied to me

It rang a million times
When you lied
It rang a million times
It rang a million times
It rang a million times
It rang a million times
It's your birthday
And I'm not there
Because you don't even
Know that I'm here

Fake trees you
Plant behind you
When it's me there
Right beside you
I'm the shade that
Creeps your shoulder
When you hide your face from me
I Can't get over
Can't get under
Can't get around or
Through to you
I Can't get over
Can't get under
Can't get around or
Through to you
Everything
Is over now
