

Heaven

Asia

In the distance, I can see them
On the trade winds, across stormy seas.
They are many, please believe me,
There's something to find,
There's someplace here deep inside of my mind. There is a time where,
There is no place here.
Tell me if you get there...
Heaven Can you see this land I'm dreaming?
Such a place, I hope we will find.
Is it there now? tell me where now,
'cos I need to know.
Believe... it's still deep inside of my mind. There is a time where,
There is no place here.
Tell me if you get there...
Heaven
