We Belong Here

Overholt

I see the smooth of the swing seat
The rug worn underneath
My dear my dear itâ€™s how youâ€™ve worn on me
Perfectly perfectly
Though we once lived through our letters
Held and smudged by the sensors
What we didnâ€™t get we didnâ€™t need
Oh â€˜cause we belong here
We belong here
More than the names of the streets, of the streets
The neighbor boys have grown and gone away
I remember when I did the same to you
I left you here and I went off to meet
The west coast and defeat the Japanese
And though we once lived through our letters
Held and smudged by the sensors
What we didnâ€™t get we didnâ€™t need
Oh â€˜cause we belong here
We belong here
More than the names of the streets, of the streets
And this is myself on the swing
This is myself on the swing
I said this is myself on the swing
This is myself on the swing
We belong here (3x)
