

This Could Be the Year

[Ryan Star](#)

This could be the year
This could be the moment
You've been waiting your whole life to show
The world the cards you're holding now It's one life, one dream, one spark
It's one chance, one move, one shot
It's on you, be cool, be real This could be the year
This could be the moment
You've been waiting your whole life to show
The world the cards you're holding It's one life, one wish, one fire
It's one choice, one voice, sing it higher This could be the year
This could be the moment
You've been waiting your whole life to show
The world that you are ready Hold your head up high and touch the sky
'Cause you know this is everything, everything
Take your shot, it's all you've gotta be This could be the year
This could be moment
This could be the year, I know it This could be the year
This could be the moment
This could be the year, I know it
