

Wanna Make Love

Blackstreet

i wanna make love
i wanna make love

yeah ooooh i wanna make love tonight
tonight all night
i wanna make love tonight
come on i wanna make love tonight
all night all night
i want to make love tonight

the wine is chilled now
and thhe time is near
the fires nice and warm
come lay right here
the music is playing slow
its time for love and you know it
and ive been waiting for this moment all night long
i wanna make love..

deep inside your love is where i wanna be
girl lets not let this moment slip away
we'll do it left to right
we'll do it baby good all night
and when the morning sun appears
we'll do it all over again tonight tonight baby
i wanna make love...
