Will Work For Love

Usher

Can you help me?
Anybody out there, help me
Please, can you help me?
Excuse me, Mister, I fell on hard times
I need some help but don't need a dime
Don't turn away, I'll wash your clothes
If you let me stay, I'll find your remote
Day after day, people walk by
I can't catch their eye, I hold up my sign
It says, "Will work for love"
I will, I will, I will, I'll work for love
Overtime
Baby, it says "Will work for love"
I will, I will, I will, I'll work for love
For all my life, I will work for love
Can you help me?
(Help me)
Anybody out there help me
(Is anybody out there?)
Please, can you help me?
Excuse me, you two, got love to spare?

Searched my whole heart, and ain't none in there
What meets a star, I?m on my last
Don't have no love, that's okay, God bless
Day after day people walk by
And I can't catch their eye, holding up my sign
It says "Will work for love"
I will, I will, I will, I'll work for love
Overtime
Baby, it says "Will work for love"
I will, I will, I will, I'll work for love
For all my life I will work for love
I remember the day I lost my heart, hey yeah
Took it for granted, I went too far, yeah
Fall down, crying and beg to feel that love again
I'd hold this sign till the very end, do anything
I will, I will, I will, I'll work for love
Overtime

Baby, it says "Will work for love"
I will, I will, I will, I'll work for love
Yeah me, I will work for love
