

# Prayers

## In This Moment

Breathing in and breathing out  
My head leaned back, my hands are tied  
I stand in here alone I scream  
Questions why Days slip by and nights I taste  
These memories run through my veins  
Injecting me with one last kiss  
Screaming why This medication can't save me  
And desperation takes hold of me  
I wanted to believe in all of this  
And I wanted to believe in you  
(You believed in me) All I am, all I have  
Leads me down these roads again  
Take my hand, show me the way  
And never bring me back here Determination is pushing me  
And perseverance is what I bleed  
I wanted to believe in all of this  
And I wanted to believe in you  
(You believed in me) All I am, all I have  
Leads me down these roads again  
Take my hand, show me the way  
And never bring me back here These are my unanswered prayers  
The time has come for me  
To say goodbye God please hear me calling All I am, all I have  
Leads me down these roads again  
Take my hand, show me the way  
And never bring me back here again  
Never bring me back here again  
Never bring me back These are my unanswered prayers  
The time has come for me  
To say goodbye God please hear me calling
