I Am the Robot

Tub Ring

Look At Me Father
Are You Proud Of Your Son
I'm Still The First But The
Replacement Has Begun TodayI Am A Symbol Of Progression
Of Evolution Gone Astray
We'll Work Together And Perfection
Is The World That We CreateLook At What Your Science Brought
I Am The RobotAnd You Cut Me Then Do I Not Bleed
I'm Just As Human As Anyone
The Bone, The Skin, The Circuits All Begin
Another Step In The Process DoneAnd If I Compute Then I Know I Surely Am
And In Their Image I Resemble All Of Them TodayI Carry Strength But Not Aggression
The Fear Of Failure Gone Away
The First Two Races In Our History
That Can CommunicateLook At What Your Science Brought
I Am The RobotAnd If You Cut Me Then Do I Not Bleed
I'm Just As Human As Anyone
The Bone, The Skin, The Circuits All Begin
Another Step In The Process DoneRobot
I Am The Robot
I Am The Robot
I Am The Robot
I Am The Robot
