

Are You Ticklish

Carly Simon

Are you ticklish or did I just hit a funny bone?
Are you ticklish, are we really alone?
Do you like me or am I just hoping for too much?
Do you like me, do you like to touch?
Do you like me?
I hear there's another side to you
Well, there's another side to me too
Let's get over to the other side, real soon
I hear there's an underneath to you
Well, there's an underneath to me too
Let's get down underneath, real soon
Are you lonesome, well, everybody's lonesome
So it's safe to assume you're lonesome
But are you ticklish, are you ticklish?
