

Bloom

Between the Buried and Me

Get down here and sing the songs we sing

In bloom we come

Tentacles swing with the waters breeze

In bloom weCrowd around

Drift down slowly

Get rid of your undesirable oxygen

Just drift down with us

In bloom we grow

Together as one

This underwater village

Bebop skippity tippity tap those toesQueen Sea will take you in

This is your new home now

Ignore the laughter

We will not hurt you

Your last wishes

Queen Sea will take you inIn bloom we know what life is all about

With not a worry in the world

Let the water move you

Move to the sweet sway of nutrition

Move to the sweet sway of melodyQueen Sea will give back life

We used you

Your purpose is clear

We never knewFloating back to the surface(Tentacle hearse transportation. Actual happenings or the distant mind?)
