

Wasting Time

Best Friends

I cant concentrate
Cant stand up straight
Feel the sunshine on my face

And when you come
I don't feel numb
We just waste our time having fun

Woe is my sorrow
For when you go
But I know that you'll be back for me

And light drips from the sky
Times passing by
But we got such a long time before we die

You taste like the summer sun and I am drenched when you are gone
We'll hang out just cause its fun yeah cos its fun and you're so fun
I just wanna feel your heat and sink in you like wet concrete
I cant even feel my feet cause
You make me feel so unreal

Your like a dream
Like electricity
And I know that I'm lucky

And the love shared at your home
Feel you should know
That the time that we shared has been sublime
