

Strike

Apartment 26

The situation is critical
Evacuate, alarm, strapped down and still
Flicked switched will detonate
Causing me no harm 'til I'm cut to size I call to memory
Times I hold you down like that Does anyone believe it's me
That I'm trying to rescue?
There's something like a void I feel
And I'm dying to tell you The situation is critical
Evacuate, alarm, strapped down and still
Flicked switched will detonate
Causing me no harm 'til I'm cut to size I call to memory
Times I hold you open Does anyone believe it's me
That I'm trying to rescue?
There's something like a void I feel
And I'm dying to tell you It's causing us no harm
So hold me open, calm me down like that
