

# White Line Blues

## Johnny Winter

You know I love to ramble  
Don't want to settle down  
I just want to ride from town to town  
Oh I love to ramble  
Don't want to settle down  
I don't want to settle down  
I just want to ride from town to town I just rode five hundred miles today  
Tryin' to finally get  
Where I'm supposed to play  
You know I rode five hundred,  
Five hundred miles today  
You know I'm tryin' to get to the city  
Where I'm supposed to play [Instrumental] I'm takin' that highway to meet my friend  
It's a long long road and it don't never end  
You'll know I'm takin' that old highway  
To meet my only friend  
You know it's a long long road  
And it don't never end, it don't have no end I got them white line blues  
And I can't stay here long  
Better love me now,  
Tomorrow I will be gone I got them white line blues,  
I can't stay here long, I can't stay here long  
You'd better love me now baby,  
Tomorrow, well I'll be gone, I'll be gone
