Overloaded

Gypsyhawk

I can't take this heat
I think I've fallen in too deep
The pressure's at it's peak
And soon it all will be released
I got my back up against the wall
On my knees I had to crawl
This is the last line that I will draw
I've had enough, sick of it all
I'm 'bout to go off
Overloaded
Any second I could blow
Overloaded
I have hit the limit and I'm ready to explode
Overloaded
I've gone as far as I can go
Overloaded
Something's got to give
I'm pushing past the last threshold
Pressure so intense
I start to crack under the stress
I can't contain myself
No telling what could happen next
I've got my back up against the wall
On my knees I had to crawl
This is the last line that I will draw
I've had enough sick of it all
I'm 'bout to go off
Overloaded
Any second I could blow
Overloaded
I have hit the limit and I'm ready to explode
Overloaded
I've gone as far as I can go
Overloaded
Something's got to give
I'm pushing past the last threshold
You're listening to new
So tightly wound, filled with rage
Can you hear the countdown ticking away

Is it too late?
I thought I'd pull myself together someday
But everyday it's getting harder to change
Everyday I'm getting harder to save
It's all I can take
You see me cracking under all of the weight
You see my spirit is beginning to break
I just want everybody out of the way
I'm 'bout to go off
A ticking time bomb
Overloaded
Any second I could blow
Overloaded
I have hit the limit and I'm ready to explode
Overloaded
I've gone as far as I can go
Overloaded
Something's got to give
I'm pushing past the last threshold
Overloaded
I have hit the limit and I'm ready to explode
Overloaded
Something's got to give
I'm pushing past the last threshold
