

Breathe

Dev

(breathe) (4x)

It's dev

(breathe) (2x)

Are you gonna make me

Breathe (4x)

Are you gonna make me

Breathe (4x)

I ain't no stripper

But your making me wanna strip

Ain't no beginner

But you make it feel like it's my first trip

So give me back the

Seeling only you can bring me

Away from all the lights out the floor (ooohweee)

Way above the ceiling

And that's what you make it

So wanna pass out

We about to spark it o-o-out

And if i

Take it way to far tonight

Out of control

Lost in the light

Before everything fades to dark

Put your lips on me and

Breathe (4x)

Are you gonna make me

Breathe (4x)

I'm gonna get ya '

Gonna (gonna) make you fall in love

Take a hold of my body

Tell me what your dreaming of

Give me back

The feeling only you can bring me

Away from all the lights out the floor (ooohweee)

Way above the ceiling
And that's what you make it
So wanna pass out
We about to spark it o-o-out

And if i
Take it way to far tonight
Out of control
Lost in the light
Before everything fades to dark

Put your lips on me and
Breathe (4x)

You just got to help me
Breathe (4x)

Are you gonna make me
Breathe (4x)

Are you gonna make me

See you standing there
But are you standing there
But i come over here
I need you right now

This is the night the sun came up
Right here
Right now

Breathe (4x)

You just got to help me
Breathe (4x)

Are you gonna make me
Breathe (4x)

You just got to help me
Breathe (4x)
