

Beginning of the End

I Killed the Prom Queen

Please take me back to the start
Where we still hold this close, to our hearts
I won't let it tear us apart
Please take me back to the time
Where you can see the light, in my eyes
And you knew that my love will never die

I knew you'll never die

Please take me back to the time
Where you can see the light, in my eyes
And you knew that my love will never die
