Tryhard's Paradise (feat. The Original Ass)

The Original Ace

No potted lol, what randy guys, what a randy!
As I jump through the parkour waiting for my next fight.
I take a look at the time and realise itâ€™s 4 at night
Cuz I have been potting and dropping so long that even my whole family wonders where I have gone. I never ran away from someone who doesnâ€™t hack.
Pearling away like a noob why not just fight back bro.
You are going to get quick drop when I bring out my op jitter.
Even when I drop pots, I am still the winner
I really hate to rage but I Iâ€™ve got to talk each word that I say, I say to build myself up noob!
Iâ€™m the kind of pvper players donâ€™t wanna see queueing up with me? Better off going to the title screen
Been wasting most our lives living in the tryhardâ€™s paradise, we rarely go outside living in the tryhardâ€™s paradis
Our elo is really high living in a tryhardâ€™s paradise
We donâ€™t eat we play all night living in the tryhardâ€™s paradise
Look at this stupid twelvie they got me playin I cant fight a normal fight im too good for these kids
So i gotta win fast with my rush kit too much straight computer gaming got me blurred vision
I am a pvp god with hack clients on my mind I mean no I am legit screen share me anytime
im a pimped out gamer got nothing but razor and my parents are rich I am a play to win player noob
Bans aint nothing but a gcheat away but my alt account protect me from judgement day
Im number #3 but will I live to see number 1 are you kiddin?
Iâ€™m second to none, tell me why cant we pvp in a world thatâ€™s full of gods like me
Been wasting most our lives living in the tryhard paradise,
we rarely go out aside living in the tryhardâ€™s paradise
Our elo is really high living in a tryhards paradise
We donâ€™t eat we play all night living in the tryhards paradise
Wake up in the morning, play until the evening even killed a hacker guess now we are even everyones running and im the one chasing whats going on with this server probably just a lag spike the mods told me to shut up but the server is getting ddosed if they cannot understand it how can I help them? I guess I cant I guess I wont I guess its done thatâ€™s the end of my favourite server
Been wasting most our lives living in the tryhardâ€™s paradise, we rarely go out aside living in the tryhardâ€™s paradis
Our elo is realy high living in a tryhardâ€™s paradise
We donâ€™t eat we play all night living in the tryhardâ€™s paradise
Tell me why canâ€™t we just pvp in a world thatâ€™s full of gods like me tell me why cant we just pvp in a world that good as gods like me.
