Mixtape For Christmas

Hey Monday

You make the holiday so lovely, Darling
You give me butterflies like when we started
Our lovin' feels so precious, it's like a Winter Wonderland
There's nothing more I can ask for this year
Than our mixtape for Christmas with all our favorite songs
I'd stay here forever if you'll sing along
Just us and the fire, we're swayin' to the beat
There's no place I'd rather be
Than here listening to our mixtape
We keep each other warm when winter kicks in
This is my favorite season just because of
Magic turns up loud
And I just don't get how I could ever spend the 25th without
Our mixtape for Christmas with all our favorite songs

I'd stay here forever if you'll sing along
Just us and the fire, we're swayin' to the beat
There's no place I'd rather be
I'm a brand new me
And all of the lights are shining
I can't stop smiling
With you by my side
Our mixtape for Christmas with all our favorite songs
I'd stay here forever if you'll sing along
Our mixtape for Christmas with all our favorite songs
I'd stay here forever if you'll sing along
Just us and the fire, we're swayin' to the beat
There's no place I'd rather be, yeah
No place I'd rather be
There's no place I'd rather be
