

Tight Jeans

Jaheim

You been looking real good lately
Makin me feel I know were friends but listen up
You cant be coming around me in tight jeans
Makin' me weak, I think you really trust me too much
You and me been cool
Since back in middle school
Like when we used to clown
And run around and act a fool
Now that were older I been noticing you bustin' out those jeans
Never seen that coming up think you know what I mean
When other niggaz tried to holla had to let 'em know
Told 'em none of yall aint good enough the truth be told
'Cause when I first figure out what love was
I was a young blood
And youve always been that treasure
Weve always been together
Your not that little girl I once knew anymore
I will see you fitting your clothes so well I can tell
Your not that girl from junior high school thats for sure
Your changing the rules now that your fine as hell
You been looking real good lately
Makin me feel I know were friends but listen up
You cant be coming around me in tight jeans
Makin' me weak, I think you really trust me too much
Now there you go again on my lap
Thinking that Im in control and I won't react
When your form is grown so phat
'Bout time you know for all that its worth
Your killing me softly in those product tops and mini skirts
Hots just puttin work all up in my face girl what did you think
That Id stop being a man when you came on the block
Showin' your promises on the back of that bike
Showin' just what I like
And a woman if you get it you had it comin', girl
You're not that little girl I once knew anymore
I will see you fitting your clothes so well I can tell
Your not that girl from junior high school thats for sure
Your changing the rules now that you're fine as hell
You been looking real good lately
Makin me feel I know were friends but listen up
You cant be coming around me in tight jeans
Makin' me weak, I think you really trust me too much
You been looking real good lately
Makin me feel I know were friends but listen up
You cant be coming around me in tight jeans
Makin' me weak, I think you really trust me too much
You been looking real good lately
Makin me feel I know were friends but listen up
You cant be coming around me in tight jeans
Makin' me weak, I think you really trust me too much
I know you trust me too much, girl
You really trust me too much

I think that you trust me but too much, girl
I know you trust me too much I can't take it no more
Gotta let it be known
I been watching you, ooh
I been waitin' on you
Hey, hey, hey
Till you put my hands on you, girl You been looking real good lately
Makin me feel I know were friends but listen up
You cant be coming around me in tight jeans
Makin' me weak, I think you really trust me too much You been looking real good lately
Makin me feel I know were friends but listen up
You cant be coming around me in tight jeans
Makin' me weak, I think you really trust me too much You been looking real good lately
Makin me feel I know were friends but listen up
You cant be coming around me in tight jeans
Makin' me weak, I think you really trust me too much
Dear baby
