

Roulette

Danity Kane

We can go, anywhere, anywhere
I don't care, see the spot
In your eyes
Show you how it all goes
I'll show you how it all goes downRun away, in your eyes
Chevrolet, paradise
Every night, Every Night
Everywhere the wind blows
Anytime the sun goes downSensational
When we explode
You make me go
Delusional
So,Tonight let's make sure that you don't look back, just forget
All we know
Take your shot like a roulette
Let's get wild no regrets
Make my heart pirouette
Take your chance
Let's get wild on your rouletteHeart Box, in the car,
PCA , after dark
Show you mine, show me yours
Fogging up the windows
Floating where it all goes
Late night, on the beach, making out to Jodeci
All my life, all my life, I've been waiting so long
For you to show me how it goesYou know, you know, that I can't help myself
Let's go, let's go, till we see morning lightSensational
When we explode
You make me go
Delusional
So,Tonight let's make sure that you don't look back, just forget
All we know
Take your shot like a roulette
Let's get wild no regrets
Make my heart pirouette
Take your chance
Let's get wild on your rouletteLet me show you how to roll
Down like the bass on a speaker
