

# Bleed & Scream (Eclipse)

## W.E.T.

You can blame it on the moon  
You can blame it on the stars  
Blame it on the sadness inside of your heart  
But now it's just a memory  
A dirty little memory\*Did it knock you on your feet  
\*Did it make you come alive  
\*Was it worth all the tears  
And worth all the lies  
And \*now you're coming back to me  
Can I forgive and forget  
When you bleed and you feel  
That your world's crashing down  
I'll be gone, I'll be on my way  
\*When you're crying at night  
And you reach out for me  
I'm afraid I don't care about you  
When you bleed and  
Bleed and screamNow your begging on your knees  
And your begging me to stay  
You beg me to look past your little mistake  
There's nothing you can say to me  
No nothing you can say to meI can handle the pain  
Handle the betrayal  
Handle the knife you stabbed in my back  
Your nothing but a memory  
Someone I'm gonna forget  
When you bleed and you feel  
That your world's crashing down  
I'll be gone, I'll be on my way  
\*When you're crying at night  
And you reach out for me  
I'm afraid I don't care about you  
When you bleed and  
Bleed and scream  
When you bleed and scream(Solo)When you bleed and you feel  
That your world's crashing down  
I'll be gone, I'll be on my way  
\*When you're crying at night  
And you reach out for me

I'm afraid I don't care about you  
When you bleed and  
Bleed and scream  
Bleed and scream  
Whoa! Yeah!
