

Love Is Rare

Morcheeba

You got a rocket in your pocket
Why can you just let me be
Have you no eyes in your sockets
Are you just pleased to see me
As you all know you better take care
Treat me with respect because love is rare
As you all know you better take care
Treat me with respect because love is rare
Love is rare
I got so holy it hurt
Why was I blessed with this rage
You rub my face in the dirt
And there's a time to turn a new page
As you all know
You better take care
Treat me with respect
Because love is rare
As you all know
(As you all know)
You better beware
(You better beware)
Treat me with respect because love is rare
As you all know you better take care
Treat me with respect because love is rare
As you all know you better beware
Treat me with respect because love is rare
As you all know
You better take care
(Just take care)
Treat me with respect because
(Love is rare)
As you all know
You better beware
(You better beware)
Treat me with respect because
(Love is rare)
As you all know you better take care
Treat me with respect because
As you all know you better beware

Treat me with respect because
As you all know you better take care
Treat me with respect because
As you all know
(Don't go rubbin' my face in the dirt)
You better beware
Treat me with respect because
As you all know you better take care
Treat me with respect because
