

Just A Dream

Jump5

When I look in your eyes, I see a whole different sky
Like I've never seen before
And when I hear your voice it's like a song that I can
Listen to o', over again
It's so crazy how you make me go crazy
Every time that I'm near you 'Cause you're just a dream
This is my reality, totally insanity
If I could be in your dream
All I wanna do is be with you, be with you
You're just a dream, just a dream When I picture the world, it takes me to the sun
I think about the way you smile
And the words that you say always seem to change
The world that I've been living in
It's so crazy how you make me go crazy
Every time that I'm near you 'Cause you're just a dream
This is my reality, totally insanity
If I could be in your dream
All I wanna do is be with you, be with you
You're just a dream
You're just a dream, just a dream, yeah More than my imagination could ever see
You're just a dream
If I could be with you You're just a dream
This is my reality, totally insanity
If I could be in your dream
All I wanna do is be with you, be with you 'Cause you're just a dream
This is my reality, totally insanity
If I could be in your dream
All I wanna do is be with you, be with you
You're just a dream
Oh whoa, you're just a dream
Just a dream
