Demons in My Head

B-Mike

Hello there Bmike
I'd say this won't hurt but...
then I'd be lying.Can somebody just help me out (Help me out)
With these demons inside my head
Cause it feels like they won't let me go
Can somebody just help me out (Help me out)
With these demons inside my head
Cause it feels like they won't let me go oh oh
Can somebody just help me out
Am I going crazy??
Well then just let me know, just let me know, just let me know oh
Can somebody just help me out
Minds missing, just picture a scientific experiment
