

# Demons in My Head

## B-Mike

Hello there Bmike  
I'd say this won't hurt but...  
then I'd be lying.Can somebody just help me out (Help me out)  
With these demons inside my head  
Cause it feels like they won't let me go  
Can somebody just help me out (Help me out)  
With these demons inside my head  
Cause it feels like they won't let me go oh oh  
Can somebody just help me out  
Am I going crazy??  
Well then just let me know, just let me know, just let me know oh  
Can somebody just help me out  
Minds missing, just picture a scientific experiment
