

Gain Green (prod. Dumdrumz)

Cousin Stizz

Money

Can a young nigga get some money?

For real though y'all niggas be hating

This here to get the record straight, you feel meCan a young nigga get some money

Rolling up twenty out the onion

Open up the sack it smell of funky

Gain green but I need blue hundreds

Licks looking sweeter than some honey

I don't listen when she say she love me

Can a young nigga get some money

Gain green but I need (hundreds)

Who that is? Who you think? Get the record straight

How you live? What you drink? You know I the bank

That's the kid from round the way, in each and every state

Oh you see the vision now man y'all niggas cray'

Been on one, been on ten man y'all niggas late

Way back when, we had roaches on our dinner plate

Swear I been through everything this shit ain't by mistake

You can't give it imma take, cause time ain't something I can waste

That's just what I know, don't put trust in folks, don't tell them your plans, just believe in them and go, see here
everybody poor its so easy to lose hope so we smoke this weed to cope, trynna even up the scoreCan a young

nigga get some money

Open up the sack it smell of funky

Gain green but I need blue hundreds

Licks looking sweeter than some honey

I don't listen when she say she love me

Can a young nigga get some money

Gain green but I need (hundreds)

I don't listen when she say she love me, shawty listen never say you love me, baby I know you want something
from me, give me head because my day been ugly

Where I come from cold it make you gully

Got some dope stashed up in my skully

Cold hard cash up in my rugby

Devil on my soul please don't trust me

Imma hit your hoe, then come bust it

And y'all boys broke y'all on Krushers

I be working hard man I ain't flossed it

When it pays off paper spreading out like mustard[Can a young nigga get some money
