

# Kiss & thrills

## Hindi Zahra

When your touch brings  
Tears and thrills  
When your kiss smells like love  
When your touch brings  
Tears and thrills  
When your kiss smells like love In your heart  
In your heart  
In your heart  
Keep it in the dark  
In the dark, in the dark I can find no peace  
And I know how to please you  
But not this time I need to see you  
When silence comes to the night  
And when love is deep and tight Oh, I need to see you  
When Silence comes to the night  
And when love I deep In your heart  
In your heart  
In your heart  
Keep it in the dark  
In the dark, in the dark You're moving under my skin slowly  
Who's gonna love you like I do  
Who's gonna kiss you like I do, baby In your heart  
In your heart  
In your heart  
Keep it in the dark  
In the dark, in the dark Who's gonna love you like I do  
Who's gonna kiss you like I do
