Young Blood

Saint Raymond

I'm telling there's nothing, but
we don't need to hold hands
you could get away so easilyIn the light of the day it's a problem
by the night we're away
In the heart of it all,
there's a truth unknownif you like, if you like
I could mean it if you like
we could try, we could try,
we could make it if we try
if you like, if you like
I could mean it if you like
give me time, give me time
I could be there by your sideYour'e the one to hold me down
you could be the one to show me how
you could turn this heart around
if you're gonna tell me, tell me now
it's in our
young blood
we cant help what we're feeling
young love
we can't help what we're feelingI don't know where we're heading, but
I just need a sign
I don't wanna be left here on my own
You're the piece of the puzzle, I
can't seem to place
in the heart of it all, there's a truth unknownif you like, if you like
I could mean it if you like
we could try, we could try,
we could make it if we try
if you like, if you like
I could mean it if you like
give me time, give me time
I could be there by your sideYou're the one to hold me down
you could be the one to show me how
you can turn this heart around
if you're gonna tell me, tell me now
its in our
young blood
we can't help what we are feeling

young love
we can't help what we are feelingI don't what we'll find
I know that we will find young blood
young blood
I don't know what we'll find
but we will see in time
young love
young loveyoung blood
we cant help what we are feeling
young blood
we cant help what we are feeling
young blood
we cant help what we are feeling
young love
we cant help what we are feelingYou're the one to hold me down
you could be the one to show me how
you can turn this heart around
if you're gonna tell me, tell me now
its in our
young blood
we can't help what we are feeling
young love
we can't help what we're feelingYou're the one to hold me down
you could be the one to show me how
you can turn this heart around
if you're gonna tell me, tell me now
its in our
young blood
we can't help what we are feeling
young love
we can't help what we are feeling
