## In God's Eyes

## **Saving Abel**

Heaven knows, the devil's told Everything on you is getting out of control I see your fist raised up and clinched I know you better than this Better than this Don't hold your breath Just get as far away as you can possibly get I know you better than you I'm takin' my time 'cause I got nothing to do Nothing to do Wait a minute, something's wrong I know it won't take long Let's burn a hole into the sky And take a look into God's eyes I know it don't seem right But it won't take all night I'm not tryin' to save the planet I just don't like this noose I'm hangin' from Red faced, short breathed Yeah, I'm takin' it all until there's nothing left For you to prove Yeah, I'm takin' my time 'cause I got nothing to do Nothing to do Wait a minute, something's wrong I know it won't take long Let's burn a hole into the sky And take a look into God's eyes I know it don't seem right But it won't take all night I'm not tryin' to save the planet I just don't like this noose I'm hangin' from Hangin' from Why don't you make up your mind? Why don't you make up your mind?

> Why don't you make up your mind? Wait a minute, something's wrong

I know it won't take long Let's burn a hole into the sky And take a look into God's eyes I know it don't seem right But it won't take all night I'm not tryin' to save the planet I just don't like this noose I'm hangin' from I just don't like this noose I'm hangin' from I just don't like this noose I'm hangin' from I just don't like this noose I'm hangin' from (Heaven knows, the devil's told) I just don't like this noose I'm hangin' from I just don't like this noose I'm hangin' from (Heaven knows, the devil's told) I just don't like this noose I'm hangin' from Why don't you make up your mind? Why don't you make up your mind? (Hangin' from!) Why don't you make up your mind? Why don't you make up your mind? Why don't you make up your mind?
