

# We Are The Fabrication

## My American Heart

We waited seven hours by the sea  
For the taste of ecstasy  
In a life we live with shreds and trees  
Swallow them whole right down our bellies  
Soon enough, our eyes grew wide  
Soon enough, we had the time  
To feel alive, to feel alive  
It felt so  
Right now we'll start you're brand new life...  
They started screaming, "don't go!"  
Right now we'll start you're brand new life...  
The pills, the pills that we don't like!  
We are the fabrication!  
We are! we are!  
We are the fabrication!  
We are! we are!
