On and On

Triumph

You sit and wonder lonely in the night
But you can't seem to make up your mind
There ain't no way to leave all the worry behindCallin' out for Lady Luck, she just lets you down
Try to take her as she comes, hang on, turn it aroundOn and on it goes
Where it stops, nobody knows
On and on it goes
Round and round, and it won't slow downIs this the right place, the right time?
Nobody gives guarantees
How can you tell the sound of opportunity?Comin' down to the moment of truth
One word could make it right
I wonder if you feel it too
Hey, maybe we're gonna get lucky tonightOn and on it goes
Where it stops, nobody knows
On and on it goes
Round and round, and it won't slow downYou're not the only one in the world
That can feel something's wrong
A broken heart, another lonely night
Still we go on and on and onOn and on it goes
Where it stops, nobody knows
On and on it goes
Round and round, still we goOn and on it goes
Where it stops nobody knows
On and on it goes
Round and round, and it won't slow down
It won't slow downOn and on and on
On and on and on
