Where the Sun Sets

Mars Water

Where the Sun Sets
by Mars Water

I've been trying too hard to be golden
Its left me down and I don't think it will happen

Well forget my regrets
Lets go back where the sun sets

(instrumental)

Time goes by too fast for me to realize
And appreciate all the good times

Well forget my regrets
Lets go back where the sun sets

(instrumental)

Well forget my regrets
Lets go back where the sun sets...
