

Life in a Day

I Am Kloot

Life in a day
Fleet of foot, full of grace
Love, mercy miles
Freedom fortune, such a filthy child
Life in a day, life in a day
Stick your jokes, your hoax in a box
Chew the chains, loose the locks
Lease your mind and find a better rate
If freedom feels like a first mistake
Life in a day, life in a day
Life in a day
See you hoof and move your feet of clay
Let it go you know or let it break
Freedom feels like a first mistake
Life in a day, life in a day
You got your education
You got your education
You got your education
You got your education
