Captivated

Patti Austin

Sometimes I drive so fast even I get scared
Some things they never last
Where's the love we shared?
Is it dead?I guess I'll never learn how to keep a man
Knowin' when my back is turned
He'll do what he can
To love another womanI was, captivated by your smile
Motivated for a while, was it wishful thinkin'
That you would be sincere
That you would be, captivatedYes, I know I drive too fast
Yes, I'm easily led
Knowin' that won't change the past
Even, even when I'm deadI was, captivated by your smile
Motivated for a while, was it wishful thinkin'
That you would be sincere
That you would be, captivated
Captivated, captivatedI was, captivated by your smile
Motivated for a while, was it wishful thinkin'
That you would be sincere
That you would be, captivated
Captivated, captivated, captivatedCaptivated, captivated
Captivated by your smile
Captivated
