

# Mine Is Yours

## Cold War Kids

Whoa

Whoa

Whoa

Whoa

You were changing colors like the leaves in fall

I was savin' up for the long winter

Summers went high out of my car

When they broke down, we didn't care

We'll figure out another way to get me there

Mine is yours

What is mine is yours

What is mine is yours

What is mine is yours

The realistic love runs out of room

I try to talk back but my mouth don't move

'Cause I don't own the sun, I don't own the moon

They only come out when they want to

They don't care whether I promise you

They only come out when they want to

They don't care whether I promise

What is mine is yours

You wanna fight about it

You wanna fight about it

You wanna fight about it

Come on, come on

I made you cry about it

I made you cry about it

I made you cry about it

Come on, come on

But there was no other way

To let you in here to stay

We had to give it away

Come on, come on

And we'll be comin' for it

And we'll be comin' for it

And when we come up

Now we'll know  
All my stones become your pearls  
All of my trials are your treasures  
All my debt, you inherit  
All my clumsy lines will shine  
'Cause mine is yours  
What is mine is yours, is yours, is yours  
Whoa  
Whoa  
Whoa  
Whoa
