

Bye Bye

[Matthew Puckett](#)

you said back down
but i stood my ground
said shut your mouth
but i said it out loud now this love makes no sense
this love has to end bye bye now bye bye
will you talk to me
when ya see me on the outside
will you tell me
when ya figure out the reasons why
you can't cope, you won't try
you cry, you cry
then you say bye bye you never said stop
so i did not
when will you let go
of this piece inside me now this love broke me down
don't tell me this love don't break you...bridge
here we are
in the middle of nowhere
here we are, here we are
ask me if i care
