

Not Gonna Fall

Dorian Holley

Verse 1:

The phrase falling in love implies that you slid
And you didn't know where you were gonna land
Out of control, a shooting star, emotions free fallin

Chorus:

Well I know just where ill land
Ive fallen before and ive broken my wings (I broke them)
But this time I'm flying
No more sky diving
I'm not gonna fall
In love anymore
Gonna fly down and land in love with you, yeah

Verse 2:

When i meet a girl makes me slide off my chair
I moved too fast, light speed ahead
Bust through the moon, heart in hand
Don't even, look down

Chorus:

Well I know just where ill land
Ive fallen before and Ive broken my wings
Well this time flying
No more sky diving
I'm not gonna fall
In love anymore
Gonna fly down and land in love with you
Yeah

Ohhhhhhh... I'm gonna fly down and land in love with you

Bridge:

Yeah baby
To have and add to this
This passion for the reason intentional

I'm not gonna fall
In love anymore

Gonna fly down and land in love with you
Yeah, oh
I'm gonna fly down and land in love with you
Yeah
