

Zombie Dance

Escape the Fate

Advisory - the following lyrics contain explicit language:

Take my flesh from me, put it on display
We've got miles to feed, I'm sick of running away
I can't believe my eyes, I'm terrified
Life full of death and some say end of times
Seems to take a piece of me tonight and soon I'll beg
Coming, coming, coming for You, every time we touch
Girl, you know you got me on pins and needles
Oh, it's not about the lust
Now you know you got me on pins and needles We're already dead
We're already dead
We're already dead
We're already I love the way that you bleed, it's slipping over me
My tongue is loving the taste, the skin between my teeth
It's like a dead masquerade, so come and dance with me
My flesh, it starts to decay, I'm dropping to my knees You, every time we touch
Girl, you know you got me on pins and needles
Oh, it's not about the lust
Now you know you got me on pins and needles You had me in a trance right in the day
I'm where the worms grow, dead people play
And now I know it's my soul that is fading
Fading, decaying, fortune I'm dazing We're already dead
We're already dead
We're already dead
We're already You, every time we touch
Girl, you know you got me on pins and needles
Oh, it's not about the lust
Now you know you got me on pins and needles
Every time we touch you got me on pins and needles
Girl, you know you've got me on pins and needles We're already dead
We're already dead
We're already dead
We're already
