

13 Horses

Alexander Rybak

13 horses swimming in the sea
Waiting for someone to find them
 Their ship is gone
 And now they are alone
With water everywhere around them
 The men were saved
 From the sinking ship
 Right before it started to burn
 And while they're safe
 Their loyal friends need help
Patiently waiting for their turn
13 horses swimming in the sea
They don't even know it's pointless
 Their pride remains
 But this time it won't help
 They used to be so tall
 And suddenly they're small
There's a couple waiting far behind
 So they will be out of sight
 But then who cares?
 They're dying anyway
All of them are doomed this night
11 horses swimming in the sea
The sea they fought was just a river
 They're used to this
 It's probably just a race
That helps to ease their minds
 But where's the finish line
 The night grows dark
 The body wants to rest
 It hurts to breathe
And still they do their best
 They want to live
 No matter for how long
Their thoughts all disappeared
'Cause now they're really scared
7 horses struggling in the sea
Waiting for someone to find them
 They don't look back
 'cause what's the point of that
There is only death behind them
 They cry for help

But help will never come
They don't now where to swim
Or what they're swimming from
They try to swim some more
When panic starts to spread
They're swimming in to shore
But only in their headsThe 3 last horses
Dying in the sea
Shouting out their cries but no one
They're born to win
They're screaming in their hearts
The strength of thousand men
They're fighting to the endThe sun is out
Birds are everywhere
They're flying high
Surfing in the air
It's nice to live
When life is such a blast
One horse that swims
It seems to be the lastThe thirteenth horse
Has always been the best
His honour will be proud
But now he wants to rest
He's longing for his home
The girl will give him food
Good boy, she'll say
Together they will play13 horses swimming in the sea
Soon they will be gone forever
And while they swim,
One thing still remains
And that's the hope that never dies
It never dies
It never dies
