Come to Me

Vangelis

Come to me while I'm sleeping
So their wagging tongues
Might not find you, my loveAll the while, they lie down
Our lighter souls fuse
Fly and dive, my loveSo stamp this night, so strong
That I will remember and have it ever afterCome to me while I'm sleeping
So their wagging tongues
Might not find you, my loveCome to me in my dreaming
So their wagging tongues
Might not find you, my love'Round the corner, back of hands
They'll still be talking
Whether or not we'd ever
Whether we'd ever, my love
