God Knows

The Coral

Deal not the truth 'til you find the proof
And feel not the weight, can you step todayWe go out, we come in
And God knows where we've been
We go out, we come in
And God knows where we've been
He knows where we've beenDeal from the path and place it on the stack
Pick out the card that's been there from the startWe go out, we come in
And God knows where we've been
We go out, we come in
And God knows where we've been
He knows where we've been
