Wrong

Burning Heads

What you're doing here
Well you don't seem to know
Did someone force you in
Or you had nowhere to go
You're always staring and whining
Complaining all the time
Show me what you've done
I'd really like to know
Cause if you heard it all before
Then I wonder what you're here forAnd I don't think
I wanna talk anymore
Cause you're wrongI see your face and now I'm bored
I see your face and now I walk away
Cause I've heard if you've heard it all before
Then I wonder what you're here forAnd I don't think
I wanna talk anymore
Cause you're wrongAnd people like you who think
You know it all ... Are bugging us who doAnd people like you who think
You know it all ... Are bugging us who do
