

Satellite

Luscious Jackson

Living on the edge of the world
Come on up and get with it, girls
Riding 'round, leave me alone
I got a long way to go Real time, don't pay me no mind Satellite, satellite, satellite
Goes around, goes around
Satellite, satellite, satellite
Goes around, goes around Cut a path through the stars
Brain gets wicked in the dark
Mark my way with broken arms
I got a long way to go Real time, don't pay me no mind Satellite, satellite, satellite
Goes around, goes around
Satellite, satellite, satellite
Goes around Real time, don't pay me no mind Satellite, satellite, satellite
Goes around, goes around
Satellite, satellite, satellite
Goes around, goes around
