Time Is On Our Side

Azure Blue

Empty words, empty promises
Show me that I'm not cut out
For the road of the entertainer
'Cause I'm really not that loud
Too much to do and too little time
Fix it now before it isn't right
Pick up the clock
And mend the broken hand

All we got to do is just believe
That time is on our side
Pick up the clock
And mend the broken hand
All we got to do is just believe
That time is on our side
That time is on our side
