Gibberish

Ryan Leslie

Time is runnin' out
Please don't make me wait
All I wanna know
Let's have a date
Lust and love ain't lost
Lost all alone
Just another lost one
If you stay gone
Has it done arose
Had you dreamed the things
All I wanna know
Let's have a date
Lust and love ain't lost
Us totally
Let's bugaloo la
Rest of the day
I'll take you
I'll take you on a date, yeah
I'm telling, I'll take you
I'll take you on a lovely day
Lovely date
I'm telling, I'll take you
I'll take you on a day date
And then a lovely day
Lovely day for a date
I see your body lighting up in the moonlight
As a ghost story you jump in the moonlight
I wanna feel you in the dark when I do right
Do right, right there, yeah
As a ghost story you jump in the morning
I signal and then you jump when I want it
I signal you and then you jump when want that
Want that right there, right there
Time is runnin' out
Please don't make me wait
All I wanna know
Let's have a date
Lust and love ain't lost
Lost all alone

Just another lost one
If you stay gone
Has it done arose
Had you dreamed the things
All I wanna know
Let's have a date
Lust and love ain't lost
Us totally
Let's bugaloo la
Rest of the day
I'll take you
I'll take you on a date, yeah
I'm telling, I'll take you
I'll take you on a lovely day
Lovely date
I'm telling you, I'll take you
I'll take you on a day date
And then a lovely day
Lovely day for a date
I see your body lighting up in the moonlight
As a ghost story you jump in the moonlight
I wanna feel you in the dark when I do right
Do right, right there, yeah
As a ghost story you jump in the morning
I signal and I want that by all means
I signal you and you got where I want that
Want that right there, right there
You know I want you right there
Said I want you baby
You know I want you right there, right there
You know I want you right there
And on a lovely day
Lovely day for a date
I see your body lighting up in the moonlight
As a ghost story you jump in the moonlight
I wanna feel you in the dark when I do right
Do right, right there, yeah
As a ghost story you jump in the morning
I signal and I want that by all means
I signal you and you got where I want that
Want that right there, right there
