

# Higher Than The Clouds

## Anuheia

Hey, feel up in the clouds on that Sunday sunset you taught me how  
Took a drive up the mountain, yeah,  
We can look out on our own little island  
Made me feel so comfortable with each moment that went by  
I wanted to show you my love for the very first time

So you really wanna? (Yes)  
So we really gonna? (Yes)  
Can't believe we both feel this way now.  
So we gonna try it (Yes)  
No more tryna hide it  
Just let it go and let our emotions take control

You take me higher than the clouds  
And your touch makes me wanna scream out loud, oooh  
You take me higher than the clouds  
I don't wanna rush  
Baby, when we touch  
Wanna let you take me over, oooh

So damn lucky that I have you in my life, yeah  
I don't have to be on a mountain  
To feel at the top and I know it won't stop cause  
When I'm in your arms I feel like a queen of dreams to be  
I'm your lady, you are my man  
Feel so right and I know you understand

So you really wanna? (Yes)  
So we really gonna? (Yes)  
I can't believe we both feel this way now.  
So we're gonna try it, no more tryna hide it.  
Just let it go and let emotions take control

You take me higher than the clouds  
And your touch makes me wanna scream out loud, oooh  
You take me higher than the clouds  
I don't wanna rush, baby, when we touch  
Wanna let you take me o, take me over

The sun setting in your eyes

All I wanna do is see the sun rise  
Here we are, right here, right now, entity  
And it seems to me that you and me  
Were meant to be

Me I, me I, me I, me I, go rum pum pum pum  
Like a beating of the drum  
A little touch from you  
Boy, I love you so much  
You'll be my superman, I'll feel no pain  
You'll take me higher than the clouds  
Up, up, up, up and away.

You take me higher than the clouds  
And your touch makes me wanna scream out loud, oooh  
You take me higher than the clouds  
I don't wanna rush, baby, when we touch, oooh  
Wanna let you take me over take me over
