

# Triage

## Chartreuse

Itâ€™s now or never, whether we try  
I canâ€™t remember why

And I canâ€™t believe that you were together  
I donâ€™t believe you let her inside  
I canâ€™t believe she wrote me the letter  
Why did you bother to leave me alive

Alive and ticking inside

We said forever, until we die  
But weâ€™re all offenders  
We all lie

I canâ€™t believe that you were together  
I donâ€™t believe you let her inside  
I canâ€™t believe she wrote me the letter  
Why did you bother to leave me alive

Alive and ticking inside

I donâ€™t believe that you were together  
I canâ€™t believe you let her inside  
I donâ€™t believe she wrote me the letter  
Why did you bother to leave me alive...
