

# Growing Up

Philippe Milon

Oh, yeah  
See all the kids on the side street  
Hangin' 'round in their cars  
They're out makin' memories, yeah  
See the girls in their summer clothes  
All the boys all rough and tough  
They just can't get enough, oh no  
They're just growing up  
And they can't get around it  
They're just growing up, face the fact  
I'm so glad that I found out I must be growing up  
I never thought I'd want to settle down  
But her love just gets to me  
Kinda feels like the real thing, yeah  
I'm feeling guilty about my friends  
Oh, they all say how I've been changing  
I'm just bored 'cause this old town's got me down, oh, yea  
I'm just growing up

Uh, I can't get around it, no  
Growing up, face the fact  
I'm so glad that I found out I must be growing up  
Feels like I'm winding down, or breaking loose  
I've put together a new plan, I'm stickin' to it  
I'm not tired, I'm just bored to come, oh man  
I'm just growing up  
No I can't get around it  
Guess I'm growing up, face the fact  
I'm so glad that I found out, I must be I'm just  
Growing up, yeah  
We just can't get around it, oh no  
Growing up, face the fact  
Yea, I'm glad that I found out I must be g-g-g  
Growing up, yeah  
No, you can't get around it, no  
Growing up, face the fact  
I'm so glad that I found out I must be growing up
