Different Times

Sense Field

You came at a crazy time
But you picked a perfect time
You could not come at a better time I know
You've chosen a brilliant time
To learn how to be strongWe find strength in ourselves, they wonder
How dare I believe in this world, yeah
And how we're going to live through this sickness
And that there are miraculous moments
To take us through these insane timesYou've chosen such beautiful eyes to see everything
You've chosen such a beautiful life I know
You've earned it and still you wonder
How it is that you are the beloved
And why you're so extremely important
'Cause you may cry a few timesYou may feel sad at times I know
It's all to learn how to live and to love, yeah
It's all to learn how to trust
There are no wrong colorsThere are no wrong colors
There are no wrong colors
There are no wrong colors
There are no wrong colors, no
