California's Bleeding

Amen

California's bleeding
California's dunes
California's bleeding
California's dunesI've never seen anything like it before
'Cause you don't 'use it' it's alright
On the sunset strip we can take your lip
And we can use it so hold tightWe're beating 'em down for a long time
You never know when you can feel it insideCalifornia's bleeding
In your California's dunes
California's dreamin'
California's, California's usedI can take it now and I can take your used
And you can use it it's alright
We come from back alleys
And the back doors of all your abusement tonightWe're feeding 'em now for a long time
You never know when you can feel it insideCalifornia's bleeding
In your California's dunes
California's dreamin'
Californian, California'sDestination anywhere
Destination anywhere
Destination anywhere
Situation nowhereThere's fear in your valley
Get on your skateboard and split
There's fear with yourCalifornia's bleeding
In your California dunes
California's dreamin'
Wish your lovers with your faded dunesDestination anywhere
Destination nowhere'We've been beating 'em down for a long time
California's bleeding
